

# PORTABLE REFRIGERATION

## MINUS40

## D60SSH

### D60SSH PORTABLE FRIDGE OR FREEZER

The Minus40 portable range is designed for transport throughout Africa, with a hard body, stainless steel interior and exterior. The fridge or freezer includes a digital temperature controller and to ensure optimum output and minimum power usage, our models can use the vehicle's 12V or 24V DC electric supply and 220V AC power without external inverters requirement.

Minus40's Medical units are backed by the reputable and reliable Minus40 service warranty. An optional annual service agreement can be specified.

Available in 4 models  
D40SSH, D60SSH, D115SSH and D150SSH

\*Additional baskets can be purchased
